Publication Workflow Assistance

- Provides specific fields to author/submitter while submission of article that helps publishing and indexing systems to understand the content automatically.
- Allows editors to select and assign reviewers to the articles.
- Reviewers can submit the comments and recommendations in the system
- Editor can accept/reject the article in the system
- Editor can schedule the article to any future volume/issue of journal
- Multiple future volume/issue can be planned in parallel
- Special Issues can also be planned and published
- Automated communications to stakeholders including communicating-author, reviewer, editor, and readers about status of article/volume/issue.
- Capability to broadcast announcements through automated emails to subscribers.

Easy Publishing and Distribution

- Easy Designing and Quick Launch of Journal with Editorial Policies and International Standards
- Log Creation, Monitoring, and Distribution Compliance auto-assured (required for high quality indexing like SCOPUS/WoS)
- Inbuilt Utility for Citation Generation in different standards (Harvard, APA, MLA etc.)
- Inbuilt Utility for Search and Suggesting Similar Articles, articles from same author etc.
- Plugin Integration for Auto DoI registration with CrossRef, mEDRA, DataCite, and others
- Plugin Integration for Auto Metric-Creation and display (Downloads, Users, Citations etc.)
- Plugin Integration to ORCID and ROR for auto profile updates of author/reviewer (attracts more authors for higher visibility)

Support for Global Indexing

- Instant integration for Google Scholar, Semantic Scholar, Dublin Core Indexing, and many more
- Instant Auto Archiving with PKPPN (LOCKSS)
- Instant registration with ReviewersCredits **REVIEWER CREDITS**
- Free Registration and Instant Approval for Indexing with WorldCat-OCLC, OAI-PMH, BASE, CORE, and many more
- DoI based FREE auto indexing in Elsevier Mendeley, ScienceOpen, ScienceGate, Dimensions and many more
- Compatible to Auto Indexing in DOAJ, Scopus, Publons, Web of Science, SciELO, etc., once registered and accepted.
